

OUR MISSION

More than 2.4 million Third-Country Nationals (TCN) aged 18-35 have arrived in the EU since 2015. Women represent 45.6% of this population and face numerous social challenges, such as employability, due to adversities related to being both migrants and women.

MOMENTUM of Cooperation is an initiative focused on reducing barriers faced by migrant and refugee women undergoing the process of socio-economic integration. We're breaking silos by providing TCN women with vocational training and equipping them with the entrepreneurial skills and tools needed to enter the job market.

MOMENTUM brings together relevant political, educational, and social stakeholders to collectively tackle these challenges and share valuable insight along the way. As a result, the project generates impact and social change through dynamic collaborations.

Together we are building a more inclusive and accessible society with equal opportunities for all. Join us on this journey!

THE TIMELINE

JAN 2022

Beginning of the project

MAR-MAY 2022

Research: In depth interviews, Focus Groups & Survey

JUN-SEP 2022

Publication of the Research Findings

OCT 2022

First draft of the Integrated Collaboration Framework
